

PHYSICAL GEOGRAPHY OF MESOPOTAMIA

Directions: Using pages 114-115 in the Nystrom Desk Atlas and page 86 in your Social Studies textbook, locate and carefully label the following physical features on the map.

Please make sure to:

- Begin by neatly labeling all features in pencil
- Once you have labeled all features, ask a classmate to double check your work
- Once you receive your classmate's approval, neatly trace over the pencil with a thin black Sharpie
- Using a blue pencil, trace over all rivers listed below
- Using a green pencil, color in the Fertile Crescent
- Using a red pencil, trace over the Tropic of Cancer
